## DODGE DURANGO *SRT* FLOORLINER (CAPTAIN CHAIRS)

P/N: 449301-44324-4-5

In the quest for the most advanced concept in floor protection, the talented designers and engineers at WeatherTech have worked tirelessly to develop the most advanced floor protection available today!

The WeatherTech FloorLiner accurately and completely lines the interior carpet giving "absolute interior protection"! The WeatherTech FloorLiner lines the interior carpet up the front, back and even up the sides of the 2019 Dodge Durango's footwell. Digital laser measurements of interior surfaces offer a consistently perfect fit!

A patented High-Density Tri-Extruded (HDTE) material allows for a rigid core for strength while offering surface friction to the carpet, as well as tactile feel to the surface! Advanced surfacing creates channels that carry fluids and debris to a lower reservoir with further channeling to help minimize fluid movement while driving! Once fluids become trapped in the reservoir, away from shoes and clothing, they are easily removed from the WeatherTech FloorLiner over the door sill. No muss-no fuss!

## MORE BUMPER PROTECTION BUMPSTEP XL

P/N: 81BS1XL

If you liked our original BumpStep, but wanted one that covered more surface area, you are in luck. WeatherTech introduces the BumpStepXL designed to provide more bumper protection and still function as a strong and sturdy step. The BumpStepXL is twice as wide as a regular BumpStep measuring 24 inches wide and 3.5 inches tall. It's designed to fit any vehicle with a standard 2" receiver hitch.

The BumpStepXL is created with a special two-step process, and is molded out of two proprietary resins for added strength and impact resistance. The base is a very strong material that resists flexing, while the second is a softer, impact absorbing material. These are molded in our manufacturing facility located in Bolingbrook, IL.

### Why get a BumpStepXL?

Don't let your bumper fall victim to unwanted bumps, dents and scratches. With the BumpStepXL, you will have the reassurance of superior bumper protection from other motorist's mistakes. As the "step" portion of its name describes, BumpStepXL also allows you to safely stand on the step (up to a 300lb max) for everyday tasks such as loading a roof rack, racking a bike or kayak or washing the upper area of your vehicle.
